HOME WITH HELP OF FLORIDA, INC.

Providing Home Care Services in Palm Beach and Broward County
Michele Farkas, RN BSN

After living in NY all my life and working as a Nursing Administrator for a home care company in Brooklyn, NY, I decided to leave when shoveling snow became a second job. I moved here with my sons in 2005 and started my own home care company after working for other companies and realizing that I had an opportunity to provide the type of care that they couldn't. Today, I have 2 offices servicing patients in Broward and Palm Beach Counties.

I have over 20 years experience as a Nursing Administrator and owner, and even more as a Registered Nurse. I know how care "should" be. As a daughter, I cared for my parents. As a home care company owner, I can coordinate and implement care plans that are individual and evolve with my patients' needs.

I advocate extensively for my patients with all providers, including long term care insurance companies, MDs and ancillary providers, and will work to ensure that you not only get a wonderful care giver but that all insurance policies are accessed and every possible resource and benefit is carefully reviewed and utilized.

I love what I do I am always available to my patients and their families, and the bulletin board by my desk is filled with thank you notes from many of them.

We provide many services including home health aide care, medication management, RN visits, Long Term Care Insurance policy analysis and planning, and comprehensive care management.
